Perum. Puri Indah Sari H.74 Kec. Cikancung Kab. Bandung

I am an active undergraduate student majoring in Informatics Engineering, with a strong passion and skills in web and software development. Eager to kickstart my career as a Web Developer and Software Engineer, I have hands-on experience as a Laboratory Assistant, where I contributed significantly to creating learning materials and delivering over 40% of the presentations.

Education

STMIK Mardira Indonesia - Bandung, Indonesia   Aug 2022
Bachelor of Informatics Engineering, 3.71/4.00

- Served as a Teaching Assistant, Laboratory Assistant, and Practical Class Assistant for Web Programming courses.
- Participated in community service programs by visiting schools to introduce students to the world of technology.

MA Arrohman - Majalaya, Indonesia   Mar 2019 - Apr 2022
High School Diploma in IPS

- Actively involved in various extracurricular activities and student organizations during high school.

Experience

GuruKoding - Akademia by Ruangguru   Jun 2025 - Present
Coding Mentor / Tech Educator

- Taught foundational programming (HTML, CSS, JavaScript) through in-person sessions.
- Created and presented interactive learning materials to enhance student understanding.
- Mentored students on coding projects, evaluated their progress, and provided regular feedback.

Assistant Lecturer (Teaching Assistant) - STMIK Mardira Indonesia   Sep 2023 - Sep 2024
Web Programming & IoT

- Assisted the lecturer in managing Web Programming lab sessions, covering HTML, CSS, JavaScript, PHP, and Laravel.
- Provided technical assistance and debugging support to students during practical sessions.
- Prepared learning modules, practice questions, and helped evaluate student assignments.
- Supported basic IoT lab activities, including hands-on work with ESP8266, sensors, and data communication.
- Helped students understand the integration of simple frontend and backend components in IoT applications.

Mentee - Ruangguru (MSIB)   Sep 2024 - Dec 2024
Fullstack & AI Developer

- Developed web applications using ReactJS and Golang, with RESTful APIs, authentication, and CRUD using Gin and PostgreSQL.
- Integrated Hugging Face AI models (NLP-Helsinki, Tapas, Phi-4) into Golang-based systems.
- Collaborated in an agile team using Git; tested apps with Postman, Firebase, and json-server.

Freelancer - Bandung   Jul 2023
Front - End Web Developer

- Designed a Roblox-style profile UI using HTML, TailwindCSS, and JavaScript.
- Collaborated in a small team with a strong focus on user experience (UX) and mobile-first design principles.

Freelancer - Bandung   Jan 2024
Fullstack Web Developer

- Built a B2B-based pharmaceutical distribution system using Laravel, TailwindCSS, and JavaScript.
- Developed the checkout and payment page integrated with Midtrans.
- Collaborated in a two-person team, focusing on full-stack development with a clean and responsive design.

Freelancer - Bandung   Jun 2025
Front - End Web Developer

- Built a restaurant QR code scanning UI with features including menu browsing, shopping cart, and checkout.
- Focused on mobile responsiveness and payment integration.
